Re: Geopolitical risks between Russia and Ukraine

Dear Sir or Madam,

JTEKT has serious concerns about the latest escalation of the tensions between Russia and Ukraine. We are continuously assessing the impact this can have on our supply chain with respect to our suppliers, sub-suppliers, service providers including transport, and customers.

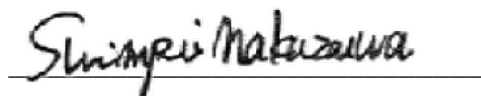

In this respect we can inform you that the potential risks towards our production and delivery are to date limited and we will continue to do our utmost to keep up with the usual delivery performance. However as you know, situation may unfortunately change quickly.

With the hourly/daily changing circumstances in the said region, including the international sanctions proclaimed by, among others, the EU, UK, US and JP against Russian Federation and Belarus, we will for the time being refrain from delivering to RU-BY-UA.

As soon as the situation allows for it, we will go back to normal business in this specific area.

If you have any questions please don't hesitate to contact your daily contacts with JTEKT.

Yours sincerely,

Shimpei Nakazawa

Director Bearing Sales & Marketing

JTEKT European Operations
